## THE BEACH GLASS

outdoor drinkware **evolved**

### Free-Standing, Outdoor, Acrylic Drinking Glass

Designed specifically for outdoor drinking, The Beach Glass' PATENTED ball and pointed stem design holds the glass upright on the beach and in the snow and grass, preventing spills and a mouthful of sand. The Beach Glass is perfect for any beverage from wine and beer to soda and water and each one holds over 12 ounces of liquid. *And they float!*

The Beach Glass® was created as a reusable drinkware alternative to enhance the shared outdoor experience and forever replace those unsightly, disposable plastic and styrofoam cups that litter our beaches and parks.
