Designed & manufactured in Europe

Kettal is established in Europe, in a small coastal town, located 45 km south of Barcelona. Kettal has its own state of the art manufacturing plant, where the product is designed, manufactured and tested. Kettal's manufacturing process involves a high intense manual labour, 85% of the product is handmade. That, allows us to build strong and yet beautiful pieces, with an exquisite attention to detail.

Jasper Morrison

Jasper Morrison, born 1959 in London, studied at the Royal College of Art in London. He pursued further studies at the Hochschule der Künste in Berlin on a fellowship. In 1986 he founded his own design studio in London. Jasper Morrison became a leading figure of "New Simplicity", a movement that advocated a more modest and also more serious approach to design. In addition to furniture, he has also created lamps, home accessories, textiles, a tram system for the city of Hanover.

Rodolfo Dordoni

Architect and designer, he was born in Milan. He designs for various companies: Artemide, Cappellini, Cassina, Minotti, Flos. Dordoni Architeti, founded with architects Alessandro Acerbi and Luca Zaniboni, deals with architectural planning and interior design, residential complexes, stores, restaurants, hotels, yachts, as well as exhibit stands of diverse commercial fields.

Patricia Urquiola

A Spanish architect based in Milan, she stands out for the original designs of objects and furniture that she produces for the best and most important international firms. The designer of some of the most emblematic pieces in the current range, she created the Maia collection, one of her most characteristic works, for Kettal.
AD Architecture Design Award 2008

Nanna & Jørgen Ditzel

The Danish designers Nanna and Jørgen Ditzel exhibited their first furniture designs in Copenhagen when they were still students at the Industrial Arts and Crafts College, Copenhagen. When they completed their education as furniture designers, they married in 1946 and established a design studio. After Jørgen Ditzel's death in 1961, Nanna continued to design, and in 1968 she moved to London where she established the Interspace International Furniture and Design Centre.

Doshi Levien

Doshi Levien is an internationally acclaimed design studio founded by designers Nipa Doshi and Jonathan Levien. Nipa grew up in India and studied design at the National Institute of Design, founded on the manifesto by Charles and Ray Eames. Jonathan trained in fine cabinet making followed by industrial design. They met at the Royal College of Art and have been working together for over 10 years in their London studio.

Emiliana design studio

After graduating from London's Central Saint Martins College of Art and Design with a master's degree in Industrial Design, they set up the Emiliana Design Studio in Barcelona in 1996. Ana and Emili's work is characterised by its ability to give each project a fresh conceptual approach, experimentation with materials, and for proactively involving the user without compromising functional, technical or production aspects. The ZigZag collection is an example.

Ronan & Erwan Bouroullec

The brothers Ronan and Erwan Bouroullec were born in Brittany in 1971 and 1976 respectively and have been working together since the mid-1990's. They are united by their quest for perfection, but at the same time it is also a constant challenge for two so very different personalities to work together. In 2007 they were discovered by Cappellini, a grand master of Italian design, who gave them their first industrial projects.

Michel Charlot

Michel Charlot is a Swiss industrial designer born in lausanne (1984). After graduating from the *éc a l* in 2009, he worked for Jasper Morrison Ltd. In 2011, he set up his own practice, and started developing products for companies such as NAVA Design, L&Z, Belux, Kettal and Vitra. Several of his products were awarded with the *Design Preis Schweiz* and *Swiss Federal Design Award* which are the most prestigious Swiss design award given to industrial products.

Waranty terms

For domestic use, all products, except for cushions, covers and fabrics (including textilines), are guaranteed for a period of five years against any manufacturing defect that affects their suitability for use. This applies to normal conditions of use and maintenance. This guarantee does not apply to faults or imperfections resulting from the passage of time or normal wear and tear. Circumstances not covered by this guarantee include, but are not limited to, the fading or change in shade of colours, changes in wood texture, scratches resulting from use, etc. For non-domestic use, by the hotel and catering industry and collectives for example, all products, except cushions, covers and fabrics, are guaranteed for a period of two years. This guarantee is subject to the same conditions as outlined above.

Technical specifications

Committed to innovation and quality, Kettal's collections are manufactured to the strictest quality standards, from the selection of the materials, to the quality and safety testing of the furniture.

IMO Certification

Upon request, we can certify our products under the IMO standards.
